Playoff Eligibility:

To be eligible for playoffs players need to play at least 7 games. Check the scoresheets carefully before and after the game for jersey numbers and players names to match and be correct. If the player does not score be sure there is a zero under their name as that's how the league counts games played, by points scored.

Eligible Players:

Eligible players may be added to a team's roster until the first game after the New Year. After that time teams wishing to add new players must petition to the league administrator in writing for approval in cases where an emergency has occurred (injuries, transfers etc.) and a new player is needed by a team.

A player not on a team's roster is an ineligible player. Any team using an ineligible player forfeits the game.

No player may be on the roster of more than one team, and once a player has played for one team, (except for Masters) he is an ineligible player for any other team during that season. Violations will be subject to review by the executive committee.

No roster shall include any person on the roster of any university, college or high school basketball team during that same season of play, unless approval of the Executive Committee is first obtained.
